TAKING INSIDE OUT

Blur the boundaries between inside and out, and create an outdoor space that feels like a true extension of your home. This collection brings together beautifully crafted porcelain paving designed to transform gardens, patios and balconies into inviting environments for relaxing, entertaining and everyday living.

Whether it's morning coffee in the sun, long summer evenings with friends, or quiet moments in your own private retreat, The Inside-Out Collection helps shape spaces that feel effortless and considered. Each surface has been selected for its natural tones, refined textures and timeless appeal, allowing you to create an outdoor setting that complements both contemporary and traditional homes.

Designed to coordinate seamlessly with matching interior tiles, The Inside-Out Collection makes it easy to achieve a continuous flow from living space to landscape. By carrying the same tone and texture from inside your home to the outdoors, you can create a unified, open feel that enhances light, space and connection throughout. It becomes part of how you live.

BROCHURE GUIDE

A SIMPLE GUIDE TO THE LAYOUTS, SYMBOLS AND INFORMATION USED THROUGHOUT THIS BROCHURE.

Explore seamless living from inside to out. White pages present interior tiles, while black pages showcase coordinating outdoor 20mm paving.

Images and colours shown are intended as a guide only. The appearance of tiles may vary in person due to lighting, surface finish and natural variation.*

FABRICATED STEP TREADS BORDERS & KERBING

Using advanced industrial saws and waterjet cutting technology, we precisely cut, mitre, groove, edge, and shape porcelain tiles and slabs (6mm to 20mm). Our processes produce high-quality stair treads, edge nosings, risers, and slip-resistant finishes for all applications. We also craft porcelain pool edges and drainage channel covers for a seamless, luxurious surface aesthetic.

Standard facing edge depths are 50mm for outdoor paving slabs and 40mm for indoor tiles, with other sizes available upon request. Mitred edge stair treads are micro-beveled to prevent damage and chipping during use.

ME50

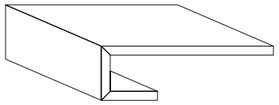

Mitred Edge Stair Tread With 50mm Dropdown

RE50

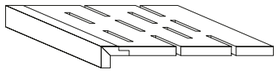

Round Edge Stair

GRAD50

Mitred Gradone Stair Tread with 50mm Dropdown

DRAINAGE CHANNEL

Drainage Channel and pool edges

Stair treads can be custom-fabricated with a range of **anti-slip grooves and inserts, available in both resin and metal**, to complement specific design preferences and tiling schemes.

RE-3G

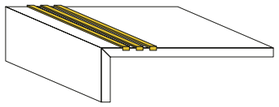

Round Edge Stair Tread with 3 Anti-Slip Grooves

RE-3GM

Round Edge Stair Tread with 3 Anti-Slip Metal Inserts

ME50-3GM

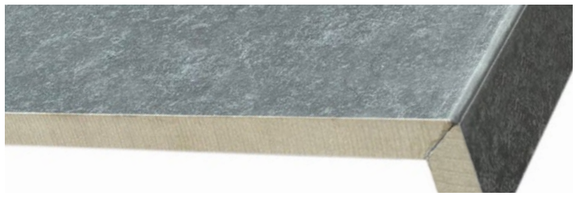

Mitred Edge Stair Tread With 50mm Dropdown and 3 Anti-Slip Metal Inserts

RE-3GR

Round Edge Stair Tread with 3 Anti-Slip Resin Inserts

The colour of the fabricated round edge is determined by the base colour of the porcelain tile, rather than its finished surface.

Our expert team can craft a range of bespoke decorative options from your porcelain paving selection, tailored to meet the unique needs of your project.

This allows you to seamlessly match your wall and edging details with your porcelain paving, enhancing the aesthetic appeal of your exterior designs. Matching porcelain kerbs contribute to contemporary, luxurious finishing touches, featuring neat, clean lines for superior results. Each piece is manufactured from your chosen porcelain slabs to perfectly complement your project design.

**All sizes quoted are nominal and must be confirmed prior to order confirmation*

Our selection of complementary step edges, borders and cobble pieces will elevate the finishing details of your paving project. **Border Strips are available in two size options 9.3x9.3cm and 9.3x60cm**

Matching porcelain kerbs contribute to contemporary, luxurious finishing touches, featuring neat, clean lines for superior results. Each piece is manufactured from your chosen porcelain slabs to perfectly complement your project design. These are our most popular border colours, chosen to frame and enhance your paving.

Enhance your project with a touch of elegance by customising your outdoor space with bespoke designs, laser-etched on your fabricated planter boxes. Create a unique and personalised environment that truly reflects your style and vision.

FABRICATED STEEL TABLES

Enhance your space with our elegant, fabricated steel tables and furniture, featuring porcelain tile inserts that perfectly match your paving and flooring options. Each design can be custom manufactured in any size to meet the aesthetic and specific needs of your project. Our tables can accommodate porcelain tiles or slabs up to 320x160cm.

The table frames are available in a variety of powder-coated finishes and are fully galvanised to prevent rusting, with a 5-year rust-free guarantee*. These durable pieces are ideal for hospitality and commercial design schemes, as well as residential projects. Simply choose the tile, paver, or slab you wish to use, and we will fabricate the frame to suit. Additionally, we offer a range of colour options upon request.

MAINTAINING OUTDOOR PORCELAIN PAVING

Proper cleaning and maintenance of outdoor porcelain paving tiles is essential to keep them looking their best and performing well over time. With regular upkeep, you can prevent dirt, grime, moss and everyday tains from building up, helping the surface stay clean, vibrant, and inviting.

Using the right cleaning products also plays a big part in protecting the finish and structure of your tiles. Effective maintenance not only enhances their appearance but also extends their lifespan, reducing the need for costly repairs or early replacements. Clean, well-maintained tiles are also safer underfoot, especially in wet or high-traffic areas.

For best results, we recommend Mapei's UltraCare range, a trusted solution for both routine cleaning and targeted treatments like stain removal or deep cleans. With the right care, your porcelain paving will stay beautiful and durable for years to come.

As a reminder, only use cleaning products according to the manufacturer's instructions. For assistance with specific cleaning and maintenance needs or technical advice, please contact your sales representative.

ULTRACARE KERANET

This powerful liquid cleaner is specially made for porcelain, ceramic, and other acid-resistant surfaces. It tackles tough marks like cement residue, limescale, and rust whether you're cleaning walls or floors, indoors or out. The updated formula is safe to use, with no harsh fumes, and it's eco-friendly too with all CO_2 emissions fully offset throughout its life cycle. A smart, responsible choice for deep cleaning.

ULTRACARE HD CLEANER

This heavy-duty cleaner and degreaser is perfect for deep cleaning tiles, stone and grout. It cuts through stubborn dirt, grease, stains and old wax coatings leaving surfaces fresh and ready for whatever comes next. Whether you're prepping for a new installation or giving existing surfaces a deep refresh, this powerful alkaline formula gets the job done with professional results.

ULTRACARE MULTICLEANER

Perfect for tiles, porcelain, natural stone and even concrete, this high-yield formula is pH-neutral, streak-free, and safe to use on both sealed and unsealed surfaces. It's also biodegradable and concentrated, so a little goes a long way making it an eco-friendly choice for regular maintenance.

ULTRACARE ACID CLEANER

A powerful acid-based cleaner for porcelain, ceramic, glass mosaic and natural stone. It removes cement residue, limescale, rust stains and efflorescence from floors and walls, indoors or out all without releasing harsh fumes.

ULTRACARE GROUT CLEANER

A gentle, lemon-scented cleaner for everyday use on tiles, stone, and grout. This pH-neutral formula is biodegradable, safe for sealed and unsealed surfaces, and helps prevent soap scum and hard water marks — all without damaging sealers.

ULTRACARE RUST REMOVER

An acid-free gel cleaner specially made to remove rust stains from delicate, acid-sensitive surfaces like polished stone and limestone. Its thick, easy-to-apply formula stays in place, giving it time to break down deep rust stains without damaging the surface making it ideal for precise, safe cleaning.
