INTRODUCTION

Red
285 x 285mm

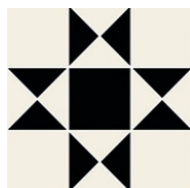

Inspired by the elegance of Victorian designs, our geometric floor tiles, meticulously crafted by Armatile, embody the timeless sophistication associated with classical period flooring.

This exquisite range features both the traditional hues reminiscent of aristocratic homes and churches of the 1800s, as well as contemporary colors, ensuring classical elegance for any setting.

REVERSE
285 x 285mm
Mesh mounted for
easy installation.

Each piece in our geometric mosaic designs is manufactured from the finest unglazed porcelain stoneware and pre-assembled on mesh sheets. This innovative approach facilitates easy installation and reduces fitting costs. The modular system guarantees pre-defined grout joints and perfectly symmetrical floors, unlike other suppliers who offer Victorian tile designs in individual pieces, which can be labor-intensive, challenging, and costly to install.

Black & White 285
x 285mm

Consequently, our entire range is ideal for both indoor and outdoor applications across a variety of architectural, hospitality, conservation, and residential projects.

Our Victorian-style tile mosaics are delivered as complete modular mesh-mounted panels, utilizing advanced manufacturing techniques to ensure superior quality and ease of use.

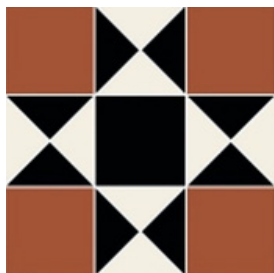

Architectural/ Design use:

Bars, civic buildings, churches, coffee shops, hotels, museums, restaurants etc

Domestic Use:

Bathrooms, kitchens, conservatories, porches, hallways, garden pathways and patios.

TECHNICAL INFORMATION

Features & Benefits

- Victorian Style Natural Finish
- Mesh Mounted Tile Panels
- Modular Design with Inter-Linking Components Full Body Porcelain Tiles
- Rectified Edges
- Slip Resistance
- Authentic Victorian Style Aesthetic
- Pre-determined Grout Lines (2mm)
- Reduced Fitting Time (21 individual mosaic pieces per panel)
Reduced Fitting Costs
- Easy to Measure, Plan, Price and Fit
- No Sealing Required
- (less than 0.05% water absorption)
- Highly Durable
- Scratch Resistant
- Stain Resistant
- Easy to Clean and Maintain
- UV Resistant
- Suitable for Commercial/High Foot Traffic Areas
- Suitable for Indoor and Outdoor Application
- Clean Minimal Appearance
- Minimum **R9** Slip-Start Value (DIN 51130)
- **A - Rated** Slip-Start Value (DIN 51097)

DESIGN SERVICE AVAILABLE

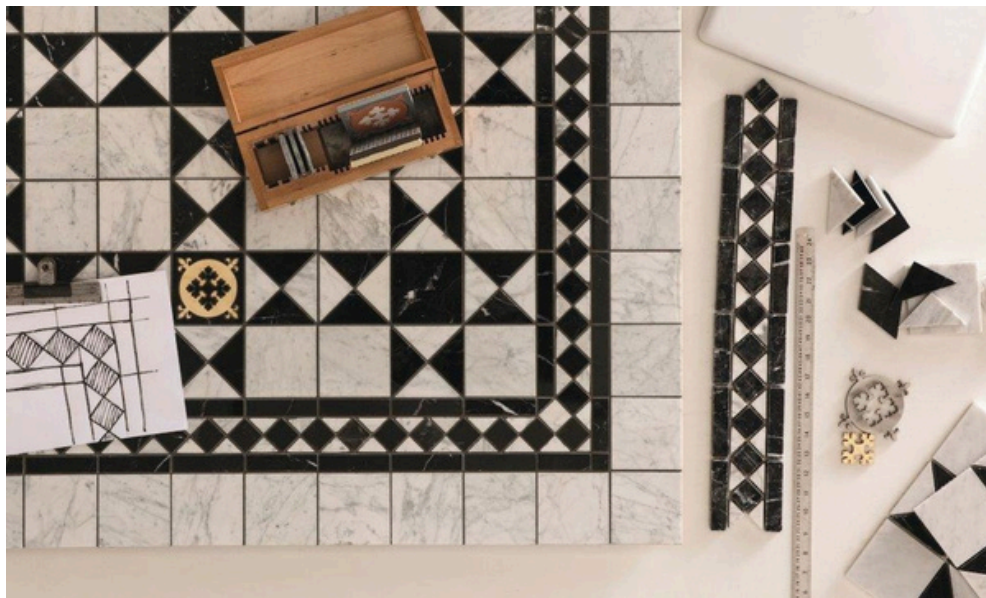

We specialise in the design and manufacture of floor and wall tile designs, made to your specification. Our existing geometric tile designs can be made from the colours of your choice.

We can also create bespoke geometric tile designs according to your requirements.

From your initial brief, image or sketch our creative in-house design team will provide you with a comprehensive design service to include colour matching, drawings, product samples and technical advice.

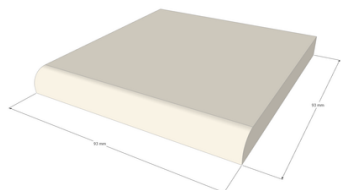

Simply contact us by email or telephone to begin the process.

Please note that there may be a small nominal fee for some drawings and samples.
