Arma**Pave**

armapave™

Elevate your outdoor living experience with Armatile's stunning Armapave collection. This exquisite range of 20mm thick porcelain paving combines exceptional durability with sophisticated style, making it the perfect choice for contemporary lifestyles. Designed to endure the demands of exterior environments, these porcelain slabs maintain their breathtaking aesthetics over time.

Whether you're envisioning a chic patio, a charming pathway, or a serene garden retreat, the Armapave collection offers a diverse array of finishes and sizes to help you create a space that truly reflects your unique taste. The non-porous surface effectively inhibits moss and algae growth, ensuring your outdoor area remains immaculate with minimal upkeep.

Transform your outdoor space into a haven of elegance and functionality with Armatile's Armapave collection.

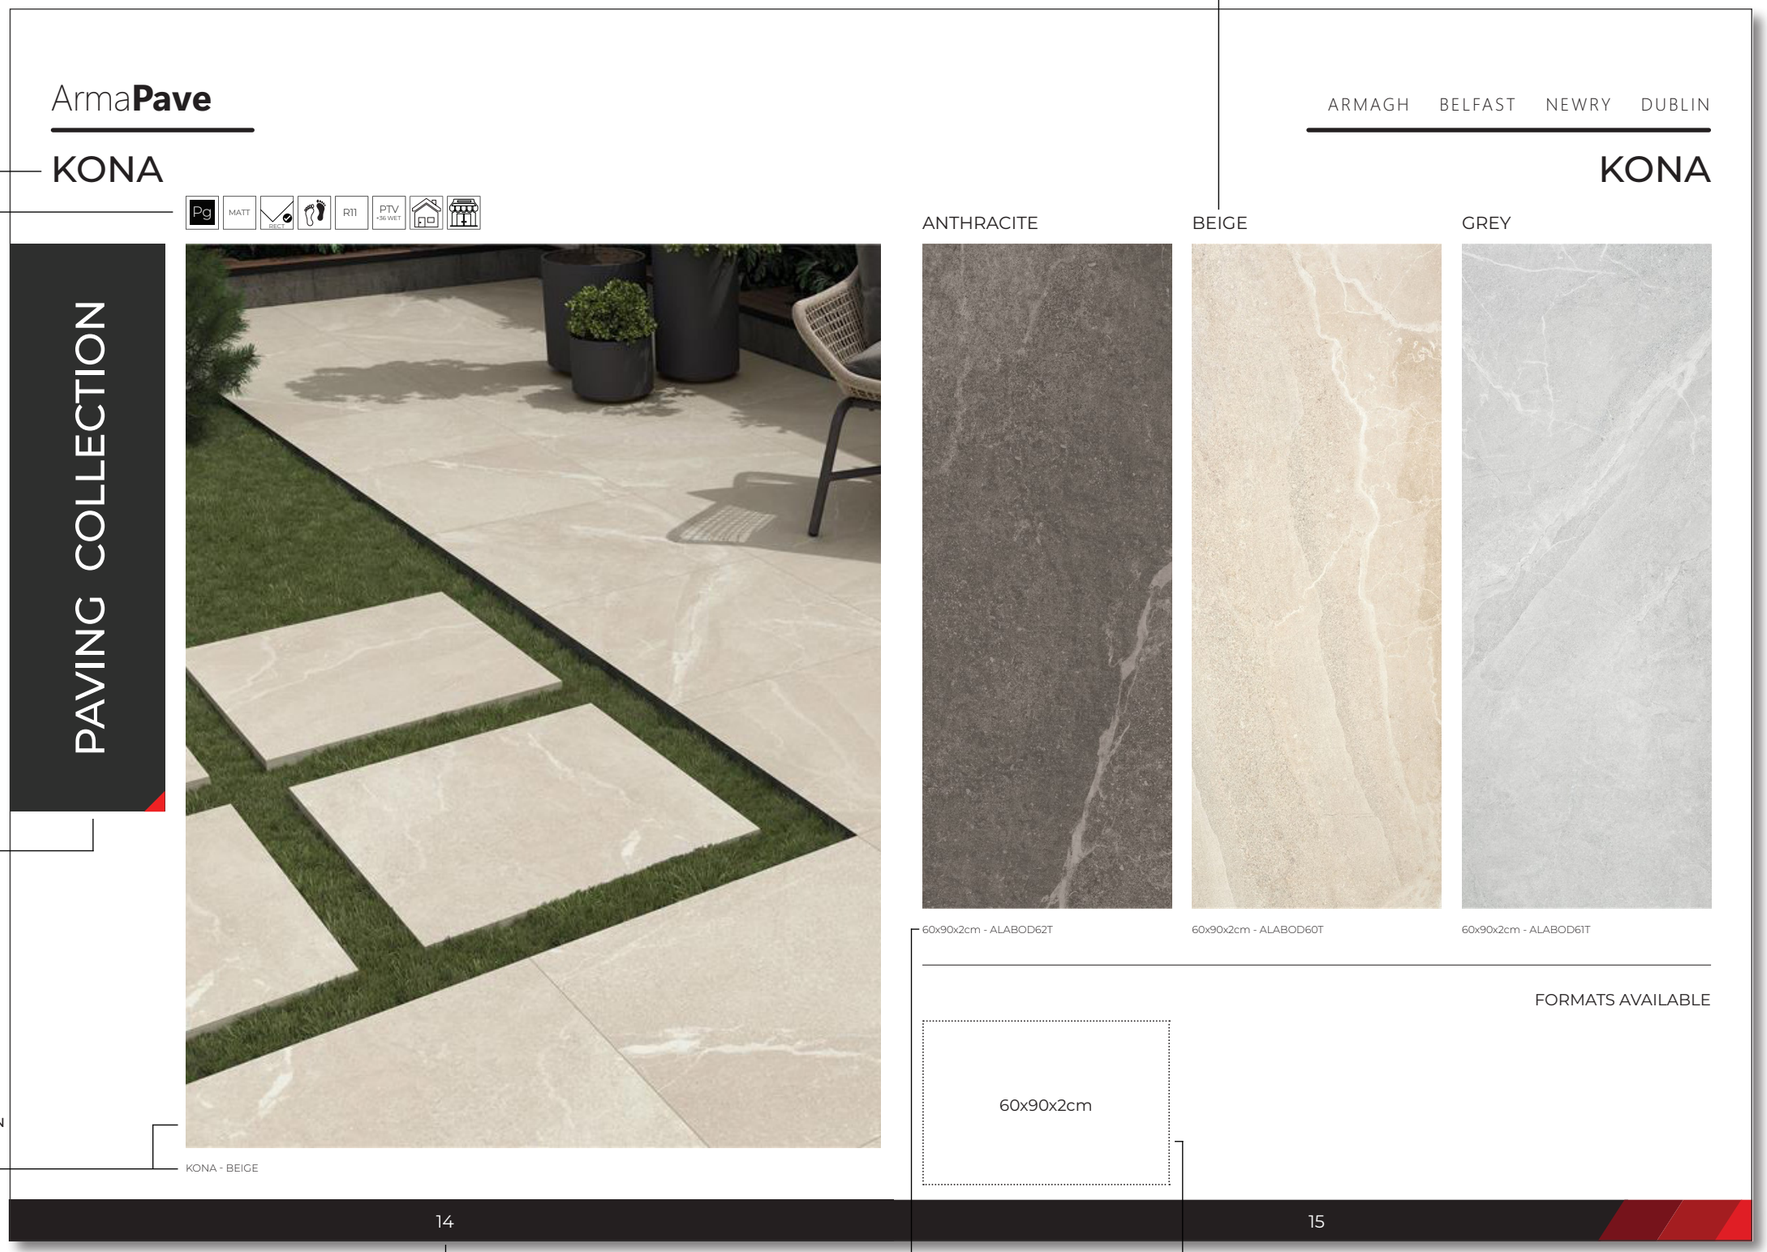

BROCHURE GUIDE

A SIMPLE GUIDE TO THE LAYOUTS, SYMBOLS AND INFORMATION USED THROUGHOUT THIS BROCHURE.

Images and colours shown are intended as a guide only. The appearance of tiles may vary in person due to lighting, surface finish and natural variation.*

- P — PORCELAIN
- Pg — PORCELAIN GLAZED
- Rb — RED BODY TILE
- Cb — COLOUR BODY TILE
- Wb — WHITE BODY TILE
- WALL TILE
- FLOOR TILE
- NON RECTIFIED EDGE (NON RECT)
- RECTIFIED EDGE (RECT)
- GLOSS — GLOSS FINISH
- MATT — MATT FINISH
- R9 — R9 SLIP RATING
- R10 — R10 SLIP RATING
- R11 — R11 SLIP RATING
- PTV +36 WET — PTV +36 SLIP RATING
- SUITABLE FOR RESIDENTIAL
- SUITABLE FOR COMMERCIAL

FABRICATED STEP TREADS BORDERS & KERBING

Using advanced industrial saws and waterjet cutting technology, we precisely cut, mitre, groove, edge, and shape porcelain tiles and slabs (6mm to 20mm). Our processes produce high-quality stair treads, edge nosings, risers, and slip-resistant finishes for all applications. We also craft porcelain pool edges and drainage channel covers for a seamless, luxurious surface aesthetic.

Standard facing edge depths are 50mm for outdoor paving slabs and 40mm for indoor tiles, with other sizes available upon request. Mitred edge stair treads are micro-beveled to prevent damage and chipping during use.

ME50

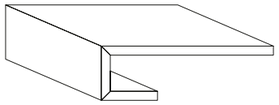

Mitred Edge Stair Tread With 50mm Dropdown

RE50

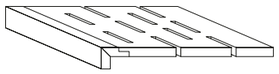

Round Edge Stair

GRAD50

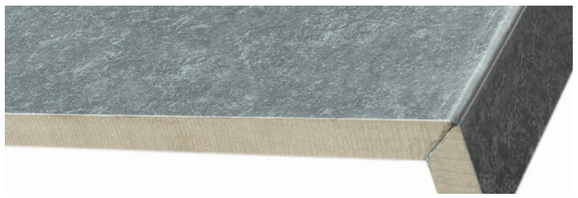

Mitred Gradone Stair Tread with 50mm Dropdown

DRAINAGE CHANNEL

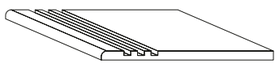

Drainage Channel and pool edges

The colour of the fabricated round edge is determined by the base colour of the porcelain tile, rather than its finished surface.

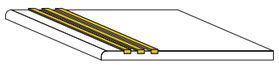

Stair treads can be custom-fabricated with a range of **anti-slip grooves and inserts, available in both resin and metal**, to complement specific design preferences and tiling schemes.

Our expert team can craft a range of bespoke decorative options from your porcelain paving selection, tailored to meet the unique needs of your project.

This allows you to seamlessly match your wall and edging details with your porcelain paving, enhancing the aesthetic appeal of your exterior designs. Matching porcelain kerbs contribute to contemporary, luxurious finishing touches, featuring neat, clean lines for superior results. Each piece is manufactured from your chosen porcelain slabs to perfectly complement your project design.

**All sizes quoted are nominal and must be confirmed prior to order confirmation*

Our selection of complementary step edges, borders and cobble pieces will elevate the finishing details of your paving project. **Border strips are available in two size options: 9.3x9.3cm and 9.3x60cm.**

Matching porcelain kerbs contribute to contemporary, luxurious finishing touches, featuring neat, clean lines for superior results. Each piece is manufactured from your chosen porcelain slabs to perfectly complement your project design. These are our most popular border colours, chosen to frame and enhance your paving.

MAINTAINING OUTDOOR PORCELAIN PAVING

Proper cleaning and maintenance of outdoor porcelain paving tiles is essential to keep them looking their best and performing well over time. With regular upkeep, you can prevent dirt, grime, moss and everyday stains from building up helping the surface stay clean, vibrant, and inviting.

Using the right cleaning products also plays a big part in protecting the finish and structure of your tiles. Effective maintenance not only enhances their appearance but also extends their lifespan, reducing the need for costly repairs or early replacements. Clean, well-maintained tiles are also safer underfoot, especially in wet or high-traffic areas.

For best results, we recommend Mapei's UltraCare range a trusted solution for both routine cleaning and targeted treatments like stain removal or deep cleans. With the right care, your porcelain paving will stay beautiful and durable for years to come.

As a reminder, only use cleaning products according to the manufacturer's instructions. For assistance with specific cleaning and maintenance needs or technical advice, please contact your sales representative.

ULTRACARE KERANET

This powerful liquid cleaner is specially made for porcelain, ceramic, and other acid-resistant surfaces. It tackles tough marks like cement residue, limescale, and rust whether you're cleaning walls or floors, indoors or out. The updated formula is safe to use, with no harsh fumes, and it's eco-friendly too with all CO_2 emissions fully offset throughout its life cycle. A smart, responsible choice for deep cleaning.

ULTRACARE HD CLEANER

This heavy-duty cleaner and degreaser is perfect for deep cleaning tiles, stone and grout. It cuts through stubborn dirt, grease, stains and old wax coatings leaving surfaces fresh and ready for whatever comes next. Whether you're prepping for a new installation or giving existing surfaces a deep refresh, this powerful alkaline formula gets the job done with professional results.

ULTRACARE MULTICLEANER

Perfect for tiles, porcelain, natural stone and even concrete, this high-yield formula is pH-neutral, streak-free, and safe to use on both sealed and unsealed surfaces. It's also biodegradable and concentrated, so a little goes a long way making it an eco-friendly choice for regular maintenance.

ULTRACARE ACID CLEANER

A powerful acid-based cleaner for porcelain, ceramic, glass mosaic and natural stone. It removes cement residue, limescale, rust stains and efflorescence from floors and walls, indoors or out all without releasing harsh fumes.

ULTRACARE GROUT CLEANER

A gentle, lemon-scented cleaner for everyday use on tiles, stone, and grout. This pH-neutral formula is biodegradable, safe for sealed and unsealed surfaces, and helps prevent soap scum and hard water marks — all without damaging sealers.

ULTRACARE RUST REMOVER

An acid-free gel cleaner specially made to remove rust stains from delicate, acid-sensitive surfaces like polished stone and limestone. Its thick, easy-to-apply formula stays in place, giving it time to break down deep rust stains without damaging the surface making it ideal for precise, safe cleaning.
