Sports club tiling

WATERJET CUT LOGOS

Step 1

Send us a photo, drawing, graphic, badge or letterhead of your logo.

Step 2

Our design department will draw up your logo and give you a graphic visual of how it will look cut in tiles.

Step 3

Choose the tiles. Our design consultants will provide you with a wide range of porcelain products from which to have your logo cut. We can also advise on suitable tiling for the surrounding tiled areas for both commercial and domestic use.

Step 4

Once you are satisfied with the logo's design and materials to be used, simply place your order and we will give you the delivery date when your very own personalised logo, waterjet cut in tiles will be ready for installation.

SLIP RESISTANT TILES FOR CHANGING ROOMS

Armatile contracts have the experience to provide tiling to the correct specification for all types of public changing areas.

From club houses to full swimming pools we have the right specification of tiling for any project.
